

## Patriot SoftWash

### October 2021 Blog #1 – Clean for the Holidays – Common Overlooked Areas That Will Welcome Holiday Guests With SoftWashing

The holidays are in full swing and December is the month known for the most holiday visits. As guests park their cars in the front of your home and walk your front door, your home's exterior is the first thing they will notice and is your chance to make a great first impression. From stains on your walkways and spots on your front porch to caked on dirt and mildew on your outside entertainment areas, the holidays are the perfect time to clean your home exterior for your holiday guests with SoftWashing.

[Patriot SoftWash](#) provides roof and exterior cleaning services in the Dallas-Ft. Worth Metroplex and surrounding areas and can get your home clean for the holidays. Here are the top four home exterior areas that often get overlooked as you prepare to welcome guests during the holiday season:

1. **Sidewalks And Driveways:** Often the first areas that your guests see as they exit their vehicles and make their way to your front door, sidewalks, walkways and driveways are the gateway to your home. Chances are guests will be wearing their holiday best and shouldn't be left to dodge grease stains and dirt in their finest holiday shoes, not to mention placing holiday décor on top of dirty surfaces leads to the need for even more cleaning once the holidays are over.
2. **Front Porch:** When guests ring the doorbell they often have a few moments to stand back and observe your front porch, which will usually include a few carefully selected holiday décor items adorning it. The last thing you want is for guests to see dirt, stains or mildew on your front porch, overshadowing your holiday decorations.
3. **Siding and Garage Doors:** With SoftWashing, your siding and garage doors will look new, paint colors will look sharp, garage doors will glow and doorframes will beam as bright as those holiday lights! Not to mention, when those holiday lights are shining, there is no hiding a dirty exterior!
4. **Outdoor Entertainment Areas:** It may be cold outside but outdoor heaters or a nice fire can keep guests comfortable and entertained by the pool, deck or patio. SoftWashing these areas will ensure that your guests are focused on having an enjoyable time, rather than worrying where to step or sit.

If you are *home for the holidays*, let Patriot SoftWash make it *Clean for the holidays*. We specialize in Residential, Commercial and Multi-Unit.
